ROUMANIA HURLS A NEW FIRE

Urged by Austria, Demands Part of Northern Bulgaria as a Share of War Spoils.

EUROPE IS AGITATED AGAIN

Russian Officers in Poland Send Valuables Away and Get Ready for Worst.

(By Federal Wireless Telegraph.) LONDON, January 10,-(Special to The Advertiser)-Roumania delivered an ultimatum to Bulgaria today, de-manding the cession of the city of Silistria and the territory to the north of a line stretching from there to Kasvaras, on the Black Sea, according to a news agency dispatch from Sofia.

The Houmanian foreign minister, in

his note, declares that Roumania is en-titled to an extension of territory if Bulgaria is to secure a large cession from the Turkish province of Adrianople and an opening on the Aegean, and the only territory which could be secured is at present included within the Bulgarian boundaries.

Bulgaria Astronyled.

Bulgarian boundaries.

Bulgaria Astounded.

Bulgaria, says the Sofia despatch, is astounded at the ultimatum and the demand of a cession of a part of her territory, which includes several important towns and some Bulgarian fortifications.

In view of the abandonment of Servia In view of the abandonment of Servia of her claim for a port on the Adriatic, to prevent Austrian intervention in the Balkan war, the Roumanian demand, behind which Vienna is presumed to be, comes with a most disquieting effect. It is feared that further demands would follow if Bulgaria surrendered to this one, and it is expected that the ultimatum from Bu charest will be ignored, even at the cost of war.

The situation, which had been thought well under way towards a peaceable settlement of all differences, has been tremendously complicated by the Roumanian-Austrian move and it will require careful hardling by the diplomats of the Powers to prevent a recurrence of the fear of a general European war.

Russia Uneasy.

(By Federal Wireless Telegraph.) ST. PETERSBURG, January 10.— (Special to The Advertiser)—Orders are expected from the Russian war minister during the next three days, re-taining with the colors all those time-expired soldiers in the army who, under ordinary conditions, should have been dismissed to the reserve two months ago. They will probably be retained until April 12.

It is understood that the failure of

the attempt to arrange a joint Austrian and Russian demobilization has force? Russia to remain prepared for eventualities. The reports from Warsaw tell of Russian orders for the completion of the fortifications and of agitation among the Russian army officers, who are sending their valuables to places of "Ar. HARMONY BETWEEN HEALTH OFFICIALS

Continue to Cooperate With Board of Health.

From Saturday Advertiser.

It present indications hold good, the tourd of health and the new board of supervisors as axisted under the old board will hold good. The two lodies came in contact chiefly through the appearament of the county sanitary inspectors, which under the old regime were turned over to the board of bealth and although paid and appointed by the municipal body were controlled by the Territory's officials.

Reorganization of this county office was made, as in all others, when the loard took office at the commencement

tourd took office at the commencement of the week, but President Pratt and (bairman Wolters of the new sanitation and health committee of the board conferred together with mutual satisfaction to both sides and the county inspectors will undoubtedly continue to perform their work under the direction of the board.

Of the six inspectors newly appointed by the board, three were old men reappointed and one other was a man who had taken the previous examina-

who had taken the previous examina-tion for inspector and passed credit-ably, being put on the waiting list. The other two men were new hands and Doctor Pratt suggested that they be placed on probation for fifteen days during which they will be schooled and if they can pass a simple examination at the end of that time, their appoint-

cont will be confirmed.

Chairman Wolters agreed to this proposition personally and the board of supervisors, it is expected, will endorse his action

FRICTION DEVELOPS BETWEEN BOARDS

Supervisors Told by Territorial Commissioners They Will Not Break in New Man.

From Saturday Advertiser.

With the tuberculin test of the 6000 head of eattle just under way and with a change in the position of milk inspector made by the board of supervisors, the department of animal industry of the territorial board of agriculture and forestry finds itself in a predicament. The board of supervisors has been asked by President W. M. Giffard of the agriculture board to re-tain in the service Joseph Richards,

the milk inspector just deposed by order of the new board. The board a few evenings since appointed E. J. Gay to the position of milk inspector. Fresident Giffard has transmitted the report of the territorial veterinarian on this subject, and he states that if any further explanation is required regarding the necessity of keeping a scientifically trained inspector on

The statement of the department post is undertaken delayed years to assist in the tuberculin test to be submitted.

of those herds.

to begin to break in a new man to do work which it will require at least one year for him to become familiar with. It is required to make the test without cost to the owner. This arrange ment, which has saved the board of supervisors a cost of testing 5000 to 6000 head of cattle annually, has

proved immensely satisfactory.

"Richards has given his whole time to study not only the dairies and herds but the character and idiosyncracies of each individual milk producer with the satisfactory result that the milk supply of the city and county of Ho-poluin may be said to be 100 per cent

better than it was two years ago,
'I therefore suggest that your board (agriculture) make such representations to the board of supervisors to in are a continuance of the services of Richards for the tuberculin test.

The report also sets forth that there are about a hundred dairies in the county and it is necessary to examine about 6000 head of sattle, which was begun a few days ago for the fourth time since the test was notherized

APPROPRIATIONS FOR ARMY BEFORE HOUSE

New Board of Supervisors Will Bill Reported Carries No Jokers, While Total Is Smaller Than Last Year.

> WASHINGTON, January 11. -(By Associated Press Cable) - Representative Hay clairman - Representative Flav chairman of the house committee on military affairs, yesterday reported from his committee the Army Appropriation Bill, which carries a total of \$93,830,117.
>
> The bill carries with it, this time, no riders in the way of special legislation affecting the the Army.
>
> The total carried by the bill.

The total carried by the bill is a million and a half smaller than the bill for 1912.

SEVEN DREADNOUGHTS FOR JAPANESE NAVY

It is still premature, says the Tokio Asahi, to say that the Japanese naval expansion program was entirely settled at the recent conference between the premier and the minister of the navy. On the contrary both the big scheme of 350,000,000 yen and that of 99,000,000 yen—which is nothing but a part of the former—still remain unsettled. Referring to the details of the big scheme, the same journal says the plan of the Japanese navy authoraties is not to build up a navy strong enough to

to build up a navy strong enough to meet the whole navy of "a certain Power," which is the hypothetic enemy, but a force which can destroy the Dector Pratt has received reports force which that Power can despatch to the sea which is the hypothetic scene have been found during the anti-rat campaign recently. One was in a two-bouse camp on one of the Hamatwo-bouse camp on one of the Hamatwo-bouse camp and another in Waipio to form one squadron of eight battlewith the recent progress in maval strategy, the navy authorities desire to form one squadron of eight battle-ships instead of six as at present, and for this object, they have drawn up a scheme for building seven super-dread-noughts (of 30,000 tens), four armored cruisers (of 27,500 tens), eight scont

ernisers (of 27,500 tons), eight scont ships and forty destroyers.

The outlays are 210,000,000 yen for the seven battleships (about 30,000,000 yen per ship); 108,900,000 yen for the armored cruisers (about 27,000,000 yen per ship); 40,000,000 yen for the eight scouts (about 5,000,000 yen per ship); and 4,800,000 yen for the forty destroyers (about 100,000 yen per ship.)

These items of expenditures make up a total of about 362,800,000, which is over 10,000,000 yen more than the out-

over 10,000,000 yen more than the out-lay hitherto reported as necessary for carrying out the big scheme. The present plan of the naval authorities, i.e., the one to be commenced the next fiscal year, is to build three battle-ships (of 30,000 tons) at a cost of 90,000,000 yen.

HUNDRED THOUSAND FOR FORT KAMEHAMEHA

scientifically trained inspector on tion as to whether these lagoons should the work, he will be glad to cooperate be filled at the cost mentioned before with the board. the construction of the buildings of the having the testing of dairy cattle in mission of this estimate of \$100,000 charge states that Richards has been beyond the time when the regular andelegated for the past two and a half nual estimates for 1914 were required

Just how the lagoons are to be filled "To replace him with an absolutely inexperienced man would practically that the contractor will have an opportunity to undertake this work by of the board of agriculture and board of supervisors," the report sets forth, "as it is beyond reason to expect us through a pipe line to the military dredging out certain portions of the channel and pumping the material through a pipe line to the military reservation.

Preparing Kamehameha.

Major Timberlake, commanding the Artillery District of Oaba, has sent twelve Coast Artillery privates from Fort Ruger to Fort Kamehameha to help the small detachment on duty clear off the underbrush for the camps of the two companies to be stationed there next week. One company is to be camped out in front of the 12-inch battery and the other by the Hawaiian Dredging Company's dock, close to the mortar battery. The men will mount the mortars when they arrive
